Dr. Rhoades challenges stereotyped thinking in new Paperback Edition of *LIVING IN THE MOMENT*

Now in pocketbook size, Dr. Roger A. Rhoades' powerful new book, *LIVING IN THE MOMENT*, holds deep-rooted beliefs up to scrutiny. The book documents personal experiences from Dr. Rhoades' own life but could easily pertain to any of us. Each "story" begins with a well-known quotation about a core belief, then describes the situation that triggered Dr. Rhoades' insight of "breakthrough moment" proportions, and wraps up with a quote of his own making that conveys what he learned.

Rhoades, who has gained a national following through his appearances on television talk shows such as *Oprah*, *The View*, and *Montel*, says of the flashes of insight contained in *LIVING IN THE MOMENT*, "We all have moments in our lives when we

suddenly see things in a new way. I speak from my heart about my own pivotal moments not just so that others can share them, but so they can get in touch with pivotal moments of their own."

The new *LIVING IN THE MOMENT* paperback edition is available online for \$12.95 (USD) through Dr. Rhoades' cyber office at www.greatstuff.com.

In addition to his guest appearances on television, Dr. Roger Rhoades is a frequent contributor to popular newsstand and online magazines on the subjects of dating, breakup recovery and infidelity. He has a Master's degree in Religious Education with emphasis in Marriage and Family from New Orleans Baptist Seminary and a Doctorate in Ministry with emphasis in Pastoral Counseling from the Graduate Theological Foundation.
